

Honeywell V-MAXX Goggles

Product Images

Description

The Honeywell V-MAXX goggle is suitable for use in a variety of industries as it protects against impact, liquids and large dust particles.

- Versatile goggles with indirect vent and polycarbonate lens
- Can be worn over prescription eyewear and with most half mask respirators
- Passes medium impact "B"
- Polycarbonate lens with clear frame in soft PVC for comfort
- Adjustable elastic headband with rotating strap attachments for easier use with hard hats
- Conforms to EN166-IB349 and ISO 9001 / 2000

We stock a wide range of Honeywell protective eyewear and offer free delivery on all orders over €50
