

Perfex TruCLEAN Mop Frame

Product Images

Description

Perfex TruCLEAN Mop Frame is a low profile mop frame that allows for easy cleaning in hard-to-reach areas. Manufactured using high-grade stainless steel, this mop frame has been designed specifically for use in cleanrooms and controlled environments

- Ideal for cleaning in hard-to-reach areas
- Quick squeeze and frame-locking mechanism which allows for easy changing of mop and sponge head
- Continual surface contact at any angle
- Accurately balanced to prevent “flipping”
- Can be locked into any position with ease
- Impervious to most chemicals and will not rust, corrode or oxidise
- Designed specifically for use in cleanrooms and controlled environments
- Compatible with polymer or stainless steel handles
