

Pelstat Surface Resistance Checker

Product Images

Description

Production Equipment Europe
Superior Service – Single Source

The Pelstat Surface Resistance Checker has exceptional accuracy using the 10/100V test voltages. The Pelstat Surface Resistance Checker can be used for a variety of surfaces and measurements

- Measures surface resistivity, resistance to ground, and point-to-point resistance
- Test range: 10^3 to 10^{12+} , displayed in 1/2 decade
- Measures in Ohms per square
- Suitable for use with conductive, dissipative and insulative surfaces
- Automatic auto-ranging 10 v and 100v test voltages
- Includes 9V battery and required test leads
- Dimensions: 70mm x 130mm x 35mm
- Compliant with EN100 015/1 and IEC 61340-5
- CE approved
