

Lakeland Pyrolon XT Coveralls

Product Images

Description

The Lakeland Pyrolon XT Coverall is a highly effective flame retardant coverall, with an added middle “Ripstop” layer for additional tear resistance. The Pyrolon XT Coverall can be safely worn over thermal protective garments whilst still ensuring thermal protection

- Type 5 & 6 breathable coverall
- Features elasticated hood, cuffs, waist and ankles
- Ergonomic fit and design for increased durability, freedom of movement and optimum fit
- Pyrolon XT Fabric has intrinsic anti-static properties with a very low surface resistance – does not wear off in use
- Three-piece hood, inset sleeves, and two-piece crotch gusset
