Description

Production Equipment Europe
Superior Service – Single Source

The Quicher Automatic Multi-Screw Feeder is an automatic screw feeder with replaceable rails for different size screws. The Automatic Multi-Screw Feeder handles many types of screws, short-length, countersunk, washers, etc

- Can be used in robotic assembly
- Very high screw feeding speed
- Screw filling sensor connected to the screw pickup section
- Flat horizontal rails and overload reverse protection prevent jams
- Power: DC 12V, 500mA
- Additional screw rails can be bought separately - please contact us for details
