

B 727 Thermal Transfer Labels

Product Images

Description

The Brady B 727 Thermal Transfer Labels are high temperature polyimide labels, designed to withstand harsh-condition washes. The B 727 Thermal Transfer Labels are ideal for circuit board and component identification

- Range of sizes
- Polyimide material type
- Permanent adhesive acrylic
- Minimum service temperature -70°C
- Maximum service temperature 300°C
- Abrasion resistant, solvent/chemical resistant
- Roll 10,000 labels
- THT4672710: 4 labels per row
- THT172710: 1 label per row
