

Pelstor Pallet Wrapper Turntable

Product Images

Description

The Pelstor Pallet Wrapper Turntable is an advanced semi-automatic stretch wrapping turntable for palletised loads. This Pallet Wrapper Turntable has a maximum wrapping height of 2M. Potential carton damage is reduced due to the advanced soft wrapping, which controls the film tension as the pallet rotates to avoid over-tensioning on corners

- Easy loading / offloading due to single start / stop position and magnetic brake
- 180° degrees rotating electronic control panel with fully programmable wrapping configuration and soft start and stop functions
- Powered pre-stretch extends film length to up to 300% for more reliable wrapping and reduced film use
- Mid-cycle reinforcement function enables greater strength at required points
- Top cover pause function allows insertion of separate top cover before wrapping resumes
- Automatic film cut-off
- Turntable height: 82MM
- Turntable diameter: 1650MM
- Max. loading weight: 1650KG
- Max. wrapping width / length: 1050 x 1050MM
- Max. Wrapping height: 2000MM
- Max. turntable speed: 12 rpm
- 2400MM x 1650MM x 2345MM (W x D x H)
- Power supply: 240V 13A
- Power consumption: 1.2kW
- Compatible Loading Ramp available
