

Lakeland ChemMax 1 Coverall

Product Images

Description

The Lakeland ChemMax 1 Coverall is a cost-effective Type 3 & 4 Coverall constructed from very lightweight, soft and flexible fabric. The ChemMax 1 Coverall benefits from Lakeland's "Super-B" design style, giving a superior fit and durability to the wearer. An effective infectious agent barrier, the ChemMax 1 Coverall passes at the highest classes in all four EN 14126 bio-hazard tests

- Inset sleeves and diamond gusset for optimum fit and comfort
- High neck and zip flaps for enhanced face / neck protection
- Cushioned double-layer kneepads
- Low noise level
- Double zip and storm flap front fastening
- Three-piece hood with tapered centre piece offers a superior fit for face and respirator masks
- Stitched and taped seams for maximum strength and protection
