Description

Production Equipment Europe
Superior Service – Single Source

The Simco-Ion Aerostat XC Ionising Air Blower has a compact design and is suitable for use in light industrial environments. Perfect for neutralising static charges on 3D objects, the Aerostat XC Ionising Air Blower offers power of 230V and has an inbuilt integrated fan which draws in ambient air and blows the air off along the anti-static bar

- Emitter pins of the anti-static bar inside the blower ionise the air, which is then blown towards the electrostatically charged object
- Item is then neutralised by the ionised flow
- Compact yet powerful design
- Integrated fan
- Electronically adjustable air volume
- Air inlet may be fitted with filter
- Fan speed control
- Working distance 1000mm max.
- Working width 500mm
- 230V AC 50 Hz
