Description

Production Equipment Europe
Superior Service – Single Source

Dependable Layflat Rubberised Fire Hoses are high quality fire hoses designed for use indoors and outdoors. Layflat Rubberised Fire Hoses are highly resistant to many chemicals including acids, salt solutions, oils and fuels making it ideal for use in high pressure situations

- Resistant to acids, salt solutions, oils, fuels, and other chemicals
- Ozone, heat and UV resistant
- Low friction loss and long elongation
- Uses "through the weave extrusion process" for higher efficiency
- Embedded in a vulcanised high-grade Nitrile/PVC compound
- Circular woven jacket made from 100% high tenacity synthetic yarn
- Can be used indoors and outdoors
- Instantaneous coupling for attachment to standpipe and fire appliances
- Burst pressure: 50bar
- Working pressure: 17bar
- Available widths: 45mm and 64mm
- Available lengths: 10m and 23m
