Description

The DuPont Tyvek 500 Labo Hooded Coveralls with Overshoes are the ideal cleanroom garment, with overshoes, hood and gusset to provide head-to-toe protection against potential contaminants. The 500 Labo Hooded Coveralls features high barrier protection, anti-static and ultra-low linting qualities

- Slip-retardant overshoes
- 3-piece hood and gusset for improved fit
- Elasticated hood, wrists and ankles
- Glued-in waist elastic
- Stitched internal seams
- Attached overshoes with friction coated soles
- Air and water vapour permeable
- Water-based liquid and aerosol repellent
- Barrier protection against fine particle and fibres down to 1 micron in size
- Flash spun, high density polyethylene
- Ultra-low linting
- Anti-static
- Certified according to EU 2016/425
- EN 1073-2
- EN 1149-5
- Chemical protective clothing: Category III, Type 5 & 6
