

SW 750

Quality features and better reliability

- Innovations that maximise performance

The main and side brushes are adjustable to ensure perfect pressure on the floor at all times and in all conditions.

The handle is fully adjustable to suit each individual operator. It folds down completely to simplify storage.

Quiet and easy cleaning

Can be used in both wet and dry applications due to polyester filter

It's easy to assume that all walk-behind sweepers are the same. Or that if you've seen one, you've seen them all. That is not the case with the SW 750 sweeper from Nilfisk, it is so superior in so many ways, that it really does stand apart from the crowd.

First of all, this battery powered, truly versatile sweeper can go anywhere and be used for cleaning everything from retail areas to petrol station forecourts. With the carpet kit, it can even clean soft floors. What's more, it comes with an onboard charger as standard to save time.

Additionally, it cleans so silently that it can be used even in the most noise sensitive areas. At just 59 dbA, the SW 750 is suitable for daytime cleaning without risk of causing disturbance. In fact, the entire design is so efficient, and so cleverly thought-out, that productivity is assured even with an inexperienced operator, while operating costs are minimised.

- Silent running. At just 59 dbA, the SW 750 can be used in even the most noise sensitive areas
- Onboard battery (46Ah) and battery charger are supplied as standard. Simply plug in the charger and you're ready to clean
- Standard battery provides up to 2 hours run time on hard floors, allowing sweeping of approximately 6,000 m². Optional 77 Ah battery increases running time to 3.5 hours
- Large wheels and traction drive, plus the balanced location of the battery above the rear axle, provide excellent manoeuvrability, even on carpeted floors
- No tools are needed for changing all usable parts. Speeds up servicing and optimises productivity

Thanks to the polyester filter the SW 750 can be used in both dry and humid areas.

The plug-in onboard battery charger ensures continuous and hassle-free operation.

Reliability is also our mantra when it comes to service

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

Main electrical motor and side brush motor are protected with circuit breakers for safety →

Safety switch de-activates the machine when the hopper is opened →

Carpet kit includes antimarking flap and dedicated brush in one package →

← Adjustable handle for ergonomics and easy storage

← The cover includes holders for cans, bottles and other large objects

← Large wheels and balanced weight make manoeuvring easy, even on carpet

← The main brush and side brush are fully adjustable to ensure correct pressure at all times

Technical specifications

Description	Unit	SW 750
Item no.		908 4707 010
Motor power source		Battery
Motor brand		Amer
Sound pressure level	dB(A)	59
Productivity rate theoretical/ actual	m ² /h	2880/1730
Working width (main broom only)	mm	355
Working width (w/sidebrushes)	mm	720
Max climbing rate	%	20
Min. turn-around aisle width	cm	-
Max. speed	km/h	4
Hopper volume	l	60
Main filter area	m ²	1
Length x width x height	cm	99x80x62
Weight	kg	68
