

A reinforced nitrile glove, combining the durability and chemical resistance of nitrile, with the added strength and comfort of an interlock knit cotton liner.

- Provides heavy duty mechanical and chemical protection for a wide variety of work environments and offers optimum comfort of use thanks to its natural shape that makes it well-suited for use with long-lasting tasks.

Industries

- Automotive Aftermarket
- Metal fabrication

Applications

- Oil, fluids and filter change
- Handling materials with sharp or rough edges
- Applying finish to materials, products
- Adjusting panels parts components
- Production line support & maintenance
- Equipment repair & maintenance
- Assembly and disassembly of equipment

AlphaTec®

ADVANCED CHEMICAL PROTECTION

39-124

Strong mechanical performance and good chemical protection in a wide range of applications

Key Features

- Compliant with FDA food handling requirements
- Curved, pre-flexed fingers and wing thumb reduce hand fatigue for extra worker comfort
- Rugged glove with chemical protection
- Superior dexterity and the high levels of wet and dry grip contribute to wearer safety and ultimately to the overall productivity
- Longer overall length than the 39-122 for further protection

Vulcanization Chemical Accelerators

- Zinc 2-mercaptobenzothiazole

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
