

Barrier™

02-100

Extreme resistance against
a wide range of chemicals.

Chemical & Liquid

This versatile glove is often used in various spill and response kits, allowing workers to perform their job with confidence, knowing the glove is providing the required safety.

- State-of-the-art, five layer laminated film glove for the broadest range of chemical protection – the best option for when the chemical hazard is not clearly identified.
- Non-woven liner material provides dry, formfitting comfort around entire hand and wrist.
- Patented electronic seam fusion technology locks out chemicals and seals the protective film and liner securely together as a single unit.

Industries

- Chemical
- Life Sciences
- Machinery & Equipment
- Metal Fabrication
- Aerospace
- Automotive
- Oil & Gas

Applications

- Filling, blending and charging of raw materials
- Handling application & cleaning tools
- Loading and unloading process equipment
- Opening and draining pumps valves or lines
- Degreasing
- Chemical Testing
- Transferring liquids and solids between vessels and tanks and process equipment
- Emergency Response

Barrier™

02-100

Extreme resistance against a wide range of chemicals.

Performance Profile

Comfort

- The non-woven liner helps dissipate heat and sweat providing a more comfortable working environment for the hands.

Protection

- Patented electronic seam fusion technology seals the protective film and liner securely together to provide superior chemical resistance.

Key Features

- Proprietary seam-fusion technology provides a secure seal against chemicals
- Wing-thumb, hand-specific design provides greater dexterity and reduced hand fatigue
- Comfortable to wear, even for extended periods
- Can be worn as a liner under heavier gloves
- Reach Compliant

Performance Standards
