

Magnetic receiver clip

Product code: M/Receiver01

Overview

The Skipper magnetic receiver clips allow the tape end to attach direct without the need for another Skipper unit. The magnetic version is perfect for attaching the end clip to vehicles and metal shelving. Simply place the receiver clip onto the desired metal surface. Any Skipper tape end clip will then slide into the receiver clip.

Key selling points

- Attach any Skipper tape end clip to a magnetic surface to end a line

Key features

- Soft pads to prevent scratching to surfaces
- Use with Skipper or Skipper XS unit tape end clips

Product Specifications

Width: 80mm	Height: 100mm
Depth: 23mm	Weight: 60g

Receiver clips can be used with both the Skipper and Skipper XS units

Product FAQs

- Q. Can I also screw the magnetic receiver clip to a wall?**
- A.** No, the magnetic receiver clip has soft pads inserted into the back of the screw holes to prevent scratching to metal surfaces. You should purchase the wall receiver clip if you intend to screw the clip into position.
