SIO-COOL CLASSIC

Hi-vis polo

As we all pay more attention to our health and safety in our daily lives, it is important to do that also while we are at work. The harmful effects of prolonged exposure of the sun to the skin can be significantly reduced by wearing the right clothing. That is why we have developed a long sleeved polo shirt that protects you against ultraviolet radiation. The inherently anti-bacterial properties of our quick drying Sio-Cool® fabric make sure your clothing stays fresh while the segmented reflective stripes and the fluorescent colour make sure you also stay safe in the dark.
